MINI TRACH DUMPER

DRIVE THE CHANGE

MAXIMUM EFFICIENCY

Endless hours of testing and fine tuning made the C85 the best in its class for performance and reliability. We created a durable machine with maintenance cost close to none.

UNDERCARRIAGE

Our undercarriage is like no one. Our Cormidi R&D department put all its experience towards creating the best undercarriage available on the market

SIMPLY INCREDIBLE

The Cormidi design lab created a machine that mixes industrial design with strength, power and easy to use

CORMIDI

C85

MINI TRACK DUMPER

DRIVE THE CHANGE

STRENGTHS

The C85 puts incredible power in a compact and sturdy machine

The operators has a perfect access to all the controls and can keep all the parameters under control

The swinging bucket not only load the dumper but can unload it frontally

The window on the left side of the unit allow an immediate check of the fuel level

The design of the engine compartment allows easy access to all the component

Greasing the undercarriage is easy and fast: nothing has to be taken apart.

the diesel machine has a key protected fuel cap

Galvanized sheet, protects the moving parts from materials that could damage them

The air/water cooling system allows the machine to operate in extreme conditions

CORMIDI

C85
MINI TRACK DUMPER

STRENGTHS

The machine can be radio controlled for dangerous jobs.

Cooling system really efficiently help work in every condition.

Maintenance free throttle.

Connecting accessory that need more hydraulics has never been so easy.

A buzzer will alert the operator in case of necessity and display always allows easy reading of the working hours.

Mechanical parking and emergency brake.

Large and sturdy hooks to move the machine in total safety.

The machine's undercarriage oscillated to follow the terrain profile for increased stability and comfort.

When the situation needs a shorter unit, the stand can be closed, otherwise it opens to let the operator in.
